We are neither a school nor a camp. We provide students with the opportunity to pursue visual and performing arts and creative writing. Students are encouraged to set and accomplish their own goals in these areas with the guidance of experienced teachers and artists. Our program is focused, intensive and active. We expect participants to work with self-discipline, energy and commitment. We are a close-knit, rural community committed to providing opportunities for young people to experience personal growth, expanded awareness and understanding of other cultures, and achievement in their chosen area of interest.

Feel free to write your answers below or attach a sheet with your responses.

1. Please tell us about this student's strengths, both creative and in other areas.

2. Please describe what you perceive to be challenging for this student.

3. Putney is a structured and demanding program (6 hours of workshops every day). What experience do you have with this student that demonstrates that he or she is well matched for the intensive program?
